

Bosch BEA 070

Exhaust Gas Analyzer

Bosch BEA 070

Exhaust Gas Analyzer

Information :

- Mobile exhaust gas opacity measurement module for diesel vehicles
 - Standalone tester, controlled with PC
- Easy maintenance – sensor and receiver can be easily cleaned from the outside
 - Long service life – extremely robust and reliable
 - Compact – small dimensions and weight
- Simple use also for buses/coaches and commercial vehicles
 - Robust – filter and connector with impact protection
 - Optionally battery powered (lithium ion technology)
- Optional charging station (on device trolley or wall-mounted)
 - Flexible – PC controlled via Bluetooth or USB
 - PC controlled via Bluetooth or USB
 - Handy – tray for probe, hose, sensors
- Convenient – all the measurement accessories included with the device
 - Add measurement for temperature sensor
 - **Ability to connect to a KTS unit**

Technical Data:

Power pack supply voltage : 100 - 240 V, 50 - 60 Hz

Operating temperature range : 5 °C to 45 °C

Battery operating time approx. 2 hours

Maximum sampling probe temperature : 250 °C

Maximum temperature at measurement input : 200 °C

Dimensions (W x H x D) : 414 x 330 x 288 mm

Weight approx. 10 kg

Package Contains:

BEA 070

Evaporator receiver

1m exhaust pipe receiver

BEA 030
